INTERESTING LETTER FROM A FARMER
DELEGATE

Agricola, Alta., April 20, 1903.
Editor Bulletin.—I have returned from England by the S.S. Tunisian, after a very pleasant trip across the Atlantic.

The congestion of immigrants is something stupendous all the way from Halifax, but the C.P.R. is making every effort to keep them moving and deserves credit for the way in which they accommodate people, as they never fill the cars to the utmost capacity, thus giving settlers room to rest.

I have arranged for two young ladies professional nurses from St. Georges Hospital, London, England, to come to Edmonton. They sail on the 22nd of April on board the "Canada," if any one should require their services. I would be glad to hear from them so that I may place them in communication with Mrs. Prentice and Miss Whiffen, the nurses I allude to on their arrival.

Large numbers of settlers are coming direct from England here, and I found it difficult to advise them tonight until later in the morning, as eager were they to start for Canada. No greater mistake could be made than to induce immigrants to arrive here until the country is reasonably dry in the spring and the roads fairly good so that they can drive out into the country and see the land open for settlement.

Unfair advantage of the necessity of newcomers. I regret today, being taken almost everywhere from Halifax to Edmonton. It is a very sure way to put an end to the great influx of immigration which is now so promising.

If we wish it to continue it is certainly to our interest, to treat the newcomers as generously and considerately as possible.

J. G. PEARCE.

THE SCIENCE OF HYPNOTISM.
The hypnotic entertainment, given by Prof. O. B. Griffith in Robertson's hall last night was largely attended. After a talk on hypnotism, the professor induced a number of young men to go forward to the platform. He mesmerized each and all of these and when in the hypnotic state put them through a variety of funny situations much to the amusement of the crowd. It was amusing to see their shamed faces look when on being suddenly taken out of this state to see their companions acting so simply.

In concluding the evening's entertainment, the professor put a young man to sleep for 46 hours. He is now on exhibition in the window of J. H. Morris' dry goods store and will not wake until 8:30 o'clock tomorrow, Wednesday night. Mr. Griffith is a master of the science of hypnotism.

AN OPEN LETTER

To the Builders of Edmonton District.

Gentlemen: No doubt you have heard and read in the papers recently a great deal about the so-called "LUMBER COMBINE."

In this connection a few statements of fact from us may be in order.

The manufacturers of British Columbia advise us that the advance in prices is due to the increased cost of labor and of materials and that this justifies the advanced prices to the trade. Whether this is true or not we are not in a position to judge.

But we do know that it is very difficult to get orders for B. C. lumber filled with any degree of promptness. Many of the mills are sold out of stock and cannot at present ship a car. We therefore claim that the advanced prices are due to scarcity of lumber.

The price of any commodity is regulated in our day not so much by the cost of production as by the general demand for the commodity.

As to our own prices we beg to say that we are careful to see that they bear a right relation to cost. We cannot help the rise in B. C. lumber, because the cost price is considerably advanced. But in the lines of our own manufacture such as Windows, Doors, Frames, etc., our prices are lower than the prices for the same articles either in British Columbia or Manitoba. This will indicate to you our position in this matter.

In view of the scarcity referred to if you are building or intend to do so, we advise you to place your order with us as soon as possible so that we may get in a position to fill it when required. We promise to do the very best for our customers that circumstances will permit.

Very Truly Yours,

TUESDAY APRIL 21, 1903

FROM OTTAWA.

April 15th, 1903.

Bulletin Correspondence.

The Redistribution Bill received its second reading last night, and was carried by a vote of 72 to 37 against an amendment moved by Sproule, calling for the postponement of the second reading until the Supreme Court had decided as to whether Ontario and the Maritime provinces are required to submit to a reduction of representation. This question was raised by Mr. Burden and was based on a somewhat intricate provision of the Confederation Act, which states that unless the population of any certain province is reduced below a certain per cent., as compared with the whole population of Canada, its representation cannot be reduced. This point again turned on whether the Canada alluded to was the original four provinces, or Canada as it exists at present.

The government took the ground that the purpose of the provisions of the Act of Confederation regarding redistribution was to ensure representation by population throughout all the provinces of the Dominion. The Act absolutely governed the action of the Government and Parliament, and that a grievous constitutional wrong would ensue if the redistribution were not made at the time, and according to the conditions specified in the Act. The attitude of the Government was the same as of previous Governments on previous occasions, when redistribution was required. The Government had in deference to the wishes of New Brunswick, permitted reference to the Supreme Court, of the contention reached by that province, but that did not at all relieve the Government from the responsibility laid upon it by the Act and established by precedent to go on and make the redistribution as required. If the judgment of the Supreme Court should uphold the contention of New Brunswick, then the work of the committee, to be appointed would be lost, but that would be all. This was no justification for delay in commencing the actual work of apportioning the constituencies.

The plea of the opposition was for delay until the Supreme Court had rendered its decision; not contending, or claiming that any harm would be done by the work progressing until that decision was rendered. It was a clear case of an attempt at delaying the business of Parliament by the opposition in their supposed party interest. Fortunately the debate was not continued to any great length and it closed with the vote mentioned, at about eleven o'clock.

The special committee appointed to adjust the boundaries of the constituencies comprises: Fitzpatrick, Minister of Justice; Sutherland, Minister of Public Works; Hyman, of London, Ont., and Davis of Saskatchewan, government supporters; and Borden, leader of the opposition; Monk, leader of the French section of the opposition, and Haggart, ex-minister of railways. The leader of the opposition attempted to put up an argument in support of the idea that the committee should be composed of an equal number of members of the opposition and of Government supporters, but although his reasoning is very careful, in this case it seemed to be too fine spun to catch the judgment of the House, and the committee was carried without further debate.

THE STORE OF THE TOWN.

Perfect Store-Keeping is Our Aim

In every act we try to approach the standard of perfect store keeping. While no house can hope to reach this goal at a single bound, we make it our daily endeavor to progress toward the ideal, which we have set as a standard. We believe that quality and liberal policy are the superstructure, because low prices have little or no significance if quality is lacking; and a liberal policy that insures an exchange of merchandise or your money back if dissatisfied lends an air of freedom and independence to shopping that robs it of objectionable features. Our liberal policy has done more toward making shopping a pleasure than a mercantile innovation ever warranted, because we live up to it by making it the first law.

LACES & EMBROIDERIES

AIRY, FAIRY LACES. If we could tell the beauty of this display of cobwebby fineries, these counterparts of the despangled creation of the insect which spins its silken threads at night to glisten in the glory of the Spring morning, it would make our lovely laces no more real. Come and see them.

Lovely NEW EMBROIDERIES. Exactly these fine choice edges on nice cloths that appeal to women who desire quality.

200 LOTS - 50 X 150

ON

Kenneth Macdonald Flats

The Finest Alluvial Soil on Earth.

On each Lot enough may be grown to support a family.

The property adjoins Little's brick yard on the South, the Experimental Farm on the North, and overlooks the Saskatchewan on the East.

The opposite bank of the river, rising in natural terraces from the water's edge to an average height of 150 feet, beautifully wooded, affords A PANORAMA OF HARMONY AND DELIGHT.

Edmonton has passed the experimental stage, and will possess in a few years a metropolitan population.

The Railway Question is settled. The Canadian Pacific, Grand Trunk and Canadian Northern are assured quantities.

A fact not generally known substantiates that Edmonton will be a terminus for some years, is that the carrying capacity of the Canadian Pacific exceeds the Oriental and British Columbian trades combined, and the three great roads mentioned will halt before pushing on to the Pacific, thereby making our city of vastly more importance than it would otherwise have been.

Much of the timber is primeval. The principal streets will be boulevarded, and ancient growth furnish overshade.

Maps and schedules of prices open for inspection at W. H. Hooper Company's Office on May 4, 1903.

NAMING THE FARM

From Farmer's Advocate, Winnipeg, April 6, 1903.

Too much cannot be said in favor of giving the homestead a name, by which it may become distinguished in the district or province in which it is situated. Most farmers who are breeding purebred stock have taken advantage of this idea and there is no reason why others who are making special efforts in producing high-class products or to have their premises appear homelike should not do likewise. It will influence the boys and girls to think more of home and will lead them to take a greater interest in making it appear beautiful. It does nothing, and can certainly do no harm, but will rather tend toward making the home more widely known, and, eventually, more valuable.

REAL ESTATE. EDMONTON.

MILLET

Mr. West and Company's store is nearing completion.

Mr. Bob Elder and wife, have moved into town where they will reside.

Mrs. Stewart is spending this week visiting her friend Mrs. Smith.

Mrs. C. Lielt and children, arrived here last night from Iowa, to join her husband, who has purchased land near here. She was accompanied by her sister-in-law and little girl, who expects her husband in a day or two with a car of household effects.

Mr. Henry Laird has sold his valuable property to Mrs. McPherson and Mrs. Aikens of Strathcona. It is expected they intend starting a boarding house. We wish them success.

Mrs. Lane has bought two lots in the south end of town. Mr. Lane is now busy erecting a large dwelling house.

Mr. Wm. Connolly is building on newly bought lots.

Mr. J. Blades is making an improvement on his house by giving it a fresh coat of paint.

Mr. French, proprietor and editor of the Wetaskiwin Times, has bought a quarter section of land from P. J. Mullen, about two miles from Millet.

Mr. P. J. Mullen is doing a flourishing business these days, selling land to his numerous customers who are arriving by every train.

Mr. and Mrs. F. Blades made a visit to Wetaskiwin yesterday.

Mrs. J. Crawford and Mrs. A. Crawford arrived here on Monday from Glasgow, Scotland, to join their husbands. They have settled near Millet. The ladies say this is a bonnie country.

Mr. R. Kubick has disposed of his two lots in center of town, for a good price.

Mrs. J. A. Barrie was very sick last week, but through the kindness of the ladies of Millet and the assistance of Dr. Sutherland from Leduc, she is now able to be about again.

Mr. Vermaestine section foreman has been away on a weeks leave of absence. Mr. Leslie of Red Deer is filling his place.

Major McFarland, one of Millet's old-timers, living two and a half miles from town, sold his homestead last week for \$1,500 and also stock, implements, etc. The purchaser was one of his countrymen and an acquaintance of his youth. The major and family will leave shortly for the coast, where they will reside. We wish them all possible success. They will be missed by their friends.

The Millet football team, the Tigers, seems to be dead these days on account of the wet ground.

EDISON SETTLEMENT

We have had quite a busy time in the Settlement during the past week. Mr. and Mrs. Seward and family, who have lately come out from the Old Country arrived here on Thursday. They felt rather disappointed on the way up from town, and no doubt the necessarily slow travelling over the muddy roads was the cause of this, for their spirits quickly rose on emerging from the heavy bush, and by the time Mr. Edison's place was reached they were delighted with the country.

Among others, two fine settlers have been secured in the persons of Mr. Quintin Golder and his brother. Mr. Golder has a wide experience in the bush, having been a bushman in New Zealand for some years; we understand also that he formed one of the New Zealand contingent, which did such good work in the South African campaign. Mrs. Golder whose companions her husband to the prairie will be the sixth lady in the Settlement.

Our friend Mr. Shutt had rather a tough time bringing up his last load from Strathcona, and unfortunately, was delayed 2 or 3 days, through his wagon breaking between St. Albert and Egg Lake.

Fine weather prevails and the Settlement is booming, nearly 150 homesteads have been taken up, and we believe that if things go on as they are doing, we shall soon have a settlement as good, if not better, than any in Alberta. It is comprised of English speaking people who come from the Old Country, from all parts of the States and from Eastern Canada. A school will soon be a necessity and we trust that before long we shall see the boys and girls starting out in the morning with their school books and pens. Upon good authority, the writer is in a position to state that before many weeks have passed we can count on having a store, and it will come as a boon and a blessing for as yet we cannot jump on the train to come into town for anything, though we expect to be able to do this in a year or so. One of the saw-mills from the springs has already moved in and will commence operations inside of two weeks.

The roads are good again and no doubt this week will find many land-hunters heading for the prairie.

April 20th.

INTERESTING LETTER FROM A FARMER DELEGATE.

Agriculture, Alta., April 20, 1903.

Editor Bulletin:—I have returned from England by the S.S. Tunisian, after a very pleasant trip across the Atlantic.

The congestion of immigrants is something stupendous all the way from Halifax, but the C.P.R. is making every effort to keep them moving and deserves credit for the way in which they accommodate people, as they never fill the cars to the utmost capacity, thus giving settlers room to rest.

I have arranged for two young ladies, professional nurses from St. Georges Hospital, London, England, to come to Edmonton. They sail on the 22nd of April on board the "Canada." If any one should require their services I would be glad to hear from them so that I may place them in communication with Mrs. Pennington and Miss Whitten, the nurses I allude to on their arrival.

Large numbers of settlers are coming direct from England and here, and I find it difficult to advise them to wait until later in the spring, as eager were they to start for Canada. No greater mistake could be made than to induce immigrants to arrive here until the country is reasonably dry in the spring and the roads fairly good so that they can drive out into the country and see the land upon settlement.

Unfair advantages of the necessities of newcomers, I regret to say, is being taken, almost everywhere from Halifax to Edmonton. It is a very sure way to put an end to the great influx of immigration which is now so promising.

If we wish it to continue it is certainly to our interest to treat the newcomers as generously and considerately as possible.

J. G. PEARCE.

THE SCIENCE OF HYPNOTISM.

The hypnotic entertainment, given by Prof. O. B. Griffith in Robertson's hall last night, was largely attended. After a talk on hypnotism, the professor induced a number of young men to go forward to the platform. He mesmerized each and all of these and when in the hypnotic state put them through a variety of funny situations much to the amusement of the crowd. It was amusing to see their shamefaced looks when, on being suddenly taken out of this state to see their companions acting so simply.

On concluding the evening's entertainment, the professor put a young man to sleep for 46 hours. He is now on exhibition in the window of J. H. Morris' dry goods store and will not wake until 8.30 o'clock tomorrow, Wednesday, night. Mr. Griffith is a master of the science of hypnotism.

AN OPEN LETTER

To the Builders of Edmonton District.

Gentlemen: No doubt you have heard and read in the papers recently a great deal about the so-called "LUMBER COMBINE,"

and the consequent advance of prices. In this connection a few statements of fact from us may be in order.

The manufacturers of British Columbia advise us that the advance in prices is due to the increased cost of labor and of materials and that this justifies the advanced prices to the trade. Whether this is true or not we are not in a position to judge.

But we do know that it is very difficult to get orders for B. C. lumber filled with any degree of promptness. Many of the mills are sold out of stock and cannot at present ship a car. We therefore claim that the advanced prices are due to scarcity of lumber.

The price of any commodity is regulated in our day not so much by the cost of production as by the general demand for the commodity.

As to our own prices we beg to say that we are careful to see that they bear a right relation to cost. We cannot help the rise in B. C. lumber, because the cost price is considerably advanced. But in the lines of our own manufacture such as Windows, Doors, Frames, etc., our prices are lower than the prices for the same articles either in British Columbia or Manitoba. This will indicate to you our position in this matter.

In view of the scarcity referred to if you are building or intend to do so, we advise you to place your order with us as soon as possible, so that we may get in a position to fill it when required. We promise to do the very best for our customers that circumstances will permit.

Very Truly Yours,

TUESDAY APRIL 21, 1903

FROM OTTAWA.

April 15th, 1903.

Bulletin Correspondence.

The Redistribution Bill received its second reading last night, and was carried by a vote of 72 to 37 against an amendment moved by Agnew, calling for the postponement of the second reading until the Supreme Court had decided as to whether Ontario and the Maritime provinces are required to submit to a reduction of representation. This question was raised by Mr. Burden and was based on a somewhat intricate provision of the Confederation Act, which states that unless the population of any certain province is reduced below a certain per cent., as compared with the whole population of Canada, its representation cannot be reduced. This point again turned on whether the Canada alluded to was the original four provinces, or Canada as it exists at present.

The government took the ground that the purpose of the provisions of the Act of Confederation regarding redistribution was to ensure representation by population throughout all the provinces of the Dominion. That the Act absolutely governed the action of the Government and Parliament, and that a serious constitutional wrong would ensue if the redistribution were not made at the time, and according to the conditions specified in the Act. The attitude of the Government was the same as of previous Governments on previous occasions, when redistribution was required. The Government had in reference to the wishes of New Brunswick, permitted reference to the Supreme Court, of the contention reached by that province, but that did not at all relieve the Government from the responsibility laid upon it by the Act and established by precedent to go on and make the redistribution as required. If the judgment of the Supreme Court should uphold the contention of New Brunswick, then the work of the committee to be appointed would be lost, but that would be all. This was no justification for delay in commencing the actual work of apportioning the constituencies.

The plan of the opposition was for delay until the Supreme Court had rendered its decision; not contending or claiming that any harm would be done by the work progressing until that decision was rendered. It was a clever case of an attempt at delaying the business of Parliament by the opposition in their supposed party interest. Fortunately the debate was not continued to any great length and it closed with the vote mentioned, at about eleven o'clock.

The special committee appointed to adjust the boundaries of the constituencies comprises: Fitzpatrick, Minister of Justice; Sutherland, Minister of Public Works; Hyman, of London, Ont.; and Davis, of Saskatchewan, government supporters, and Menzies, leader of the opposition; Monk, leader of the French section of the opposition, and Haggart, ex-minister of railways. The leader of the opposition attempted to put up an argument in support of the idea that the committee should be composed of an equal number of members of the opposition and of Government supporters, but although his reasoning is very careful, in this case it seemed to be too fine spun to catch the judgment of the House, and the committee was carried without further debate.

STORE NEWS

THE STORE OF THE TOWN.

Perfect Store-Keeping is Our Aim

In every act we try to approach the standard of perfect store-keeping. While no house can hope to reach this goal at a single bound, we make it our daily endeavor to progress toward the ideal, which we have set as a standard. We believe that quality and liberal policy are the superstructure, because low prices have little or no significance if quality is lacking; and a liberal policy that insures an exchange of merchandise or your money back if dissatisfied lends an air of freedom and independence to shopping that robs it of objectionable features. Our liberal policy has done more toward making shopping a pleasure than a meretricious innovation ever warranted, because we live up to it by making it the first law.

LACES & EMBROIDERIES

AIRY, FAIRY LACES. If we could tell the beauty of this display of cobwebby fineries, these counterparts of the dew-beanied creation of the insect which spins its silken threads at night to glisten in the glory of the Spring morning, it would make our lovely laces no more real. Come and see them.

Lovely NEW EMBROIDERIES. Exactly these fine choice edges on nice cloths that appeal to women who desire quality.

BOOTS & SHOES

BOYS' & GIRLS' SHOES.—Good, reliable shoes for school or dress. If every mother in Edmonton knew how good and low priced are the shoes for children which we have, we should still have to say something about them every little while out of pure enthusiasm, and to let the newcomers to Edmonton know that the best is always the cheapest; and we have the best for your money.

Men's and Boys', Women's, Misses' and Children's RUBBER BOOTS in all sizes. Shoe department on main floor, rear of left hand aisle.

MEN'S CLOTHING.

"BE WELL DRESSED this Spring." There's a prosperous look to the well dressed. We can dress you. "Facts are stubborn things" and when we advertise the best clothing for little money and back up the statement with the goods it is not hard to convince you that there are many reasons why we hold our patrons and why we are able to make so many new ones.

Picadilly Suits \$12 to \$30

Picadilly Trousers \$3 to 6.50

MEN'S HATS

BROWN IS THE ELECTED COLOR. The elect demands it of most every shade. We have just twenty-five different styles of hats, both soft and stiff in all manner of browns. Also black, if you prefer it. They include the initial black sponsored by the Charge-for-the-label haters, and a few exclusive ones. We ask \$2.50 for the hat—nothing for the label, yet it identifies as much style and material quality as any of them.

Complete satisfaction, both now and for years to come, is the result of giving us your orders for Carpets, Oil-cloths, Linoleums, Curtains, etc.

A LADY WELL KNOWN IN EDMONTON recently told us that "10 years ago she bought a carpet from the Company, and though in constant use, it still looks new." We have the newest and handsomest designs in all kinds of Floor-coverings, Curtains, Tapestries, Curtain Muslins, Art Sateens, Art Muslins etc.

A GENERATION OF WEAR will not destroy our inlaid or plain color pure Cork Linoleum.

Kenneth Macdonald Flats

The Finest Alluvial Soil on Earth.

On each Lot enough may be grown to support a family.

The property adjoins Little's brick yard on the South, the Experimental Farm on the North, and overlooks the Saskatchewan on the East.

The opposite bank of the river, rising in natural terraces from the water's edge to an average height of 150 feet, beautifully wooded, affords A PANORAMA OF HARMONY AND DELIGHT.

Edmonton has passed the experimental stage, and will possess in a few years a metropolitan population.

The Railway Question is settled. The Canadian Pacific, Grand Trunk and Canadian Northern are assured quantities.

A fact not generally known substantiates that Edmonton will be a terminus for some years, is that the carrying capacity of the Canadian Pacific exceeds the Oriental and British Columbian trades combined, and the three great roads mentioned will halt before pushing on to the Pacific, thereby making our city of vastly more importance than it would otherwise have been.

Much of the timber is primeval. The principal streets will be boulevarded, and ancient growth furnish overshade.

NAMING THE FARM

From Farmer's Advocate, Winnipeg, April 6, 1903.

Too much cannot be said in favor of giving the homestead a name, by which it may become distinguished in the district or province in which it is situated. Most farmers who are breeding purebred stock have taken advantage of this idea and there is no reason why others who are making special efforts in producing high-class products or to have their premises appear homelike should not do likewise. It will influence the boys and girls to think more of home and will lead them to take a greater interest in making it appear beautiful. It does nothing, and can certainly do no harm, but will rather tend toward making the home more widely known, and eventually, more valuable.

The surveys conform to existing ones, and the streets will be projected to their legitimate confines. Building Sites on the verge of the hill overlooking the mighty Saskatchewan, the foliage and verdure of whose banks is not exceeded by the fiercest tropics or softest Pacific scenes, abound. Mrs. J. A. Barrie was very sick last week, but through the kindness of the ladies of Millet and the assistance of Dr. Sutherland from Leduc, she is now able to be about again.

Mr. Vermulstine section foreman has been away on a week's leave of absence. Mr. Lennie of Red Deer is filling his place.

Major McFarland, one of Millet's old-timers, living two and a half miles from town, sold his homestead last week for \$1,500 and also stock, implements, etc. The purchaser was one of his countrymen and an acquaintance of his son's. The major and family will leave shortly for the coast, where they will reside. We wish them all possible success. They will be missed by their friends.

The Millet football team, the Tigers, seems to be dead these days on account of the wet ground.

EDISON SETTLEMENT

We have had quite a busy time in the Settlement during the past week. Mr. and Mrs. Seward and family, who have lately come out from the Old Country arrived here on Thursday. They felt rather downhearted on the way up from town, and no doubt the necessarily slow travelling over the muddy roads was the cause of this. For their spirits quickly rose on arriving from the heavy bush, and by the time Mr. Edison's place was reached they were delighted with the country.

Among others, two fine settlers have been secured in the persons of Mr. Quintin Golder and his brother. Mr. Golder has a wide experience in the bush, having been a bushman in New Zealand for some years; we understand also that he formed one of the New Zealand contingent, which did such good work in the South African campaign. Mrs. Golder who accompanies her husband to the prairie will be the sixth lady in the Settlement.

Our friend Mr. Shutt had rather a tough time bringing up his last load from Strathcona, and unfortunately, was delayed 2 or 3 days, through his wagon breaking between St. Albert and Egg Lake.

Fine weather prevails and the Settlement is booming, nearly 150 homesteads have been taken up, and we believe that if things go on as they are doing, we shall soon have a settlement as good, if not better, than any in Alberta. It is comprised of English speaking people who come from the Old Country, from all parts of the States and from Eastern Canada. A school will soon be a necessity and we trust that before long we shall see the boys and girls starting out in the morning with their school books and pens. Upon good authority, the writer is in a position to state that before many weeks have passed we can count on having a store, and it will come as a boon and a blessing for as yet we cannot jump on the train to come into town for anything, though we expect to be able to do this in a year or so. One of the saw-mills from the springs has already moved in and will commence operations inside of two weeks.

The roads are good again and no doubt this week will find many hand-hunters heading for the prairie.

April 20th.
